Soft Skills Development

Building soft skills and strengthening leadership and management skills are essential for seasoned employees as well as those just entering the workforce.

Microlearning for Maximum Impact

EBSCOlearning Accel empowers employees to master essential business skills in just minutes a day. With quick-access videos, concise book summaries, and impactful articles from today's top business thought leaders, employees can stay ahead of emerging trends and advance their careers efficiently.

EBSCOlearning Accel offers:

Seamless integration into your company's learning management system through Competency Mapping

Premium Harvard Business Review content, including the renowned HBR Must Read series

Concise Business Book Summaries of thousands of influential business books

Expert-led videos featuring authors, professors, executives and entrepreneurs

Customizable Learning Paths that focus on specific soft skill-building areas that align with instructional goals

Software as a Service (SaaS)

The SaaS products for research are designed to bring together the **best in content, technology** and **user experience** to transform the way research gets done.

Software as a Service

EBSCO Discovery Service (EDS) With EDS, your employees can use a single search box to surface content from all your e-resources, anticipating the user's information needs and delivering the right content quickly.

Stacks Build and customize a highly intuitive portal. Stacks increases usage of professional development and research content by allowing users to search all your resources at once, including subscription services, content you create, open content and more.

OpenAthens Authentication Utilize secure single sign-on technology to simplify access to your organization's electronic resources. Users get access to digital content, whenever they want and wherever they are.

E-Books and Journals

These resources are the perfect complement to EBSCO Corporate Solutions databases – providing users with the **full spectrum of corporate research content.**

E-Books and Journals

EBSCO eBooks Choose from a wide variety of e-books with topics ranging from marketing, finance, supply chain management and entrepreneurship, to career growth, personal development, communication and networking. Our growing collection of DRM-free e-books offer a flexible, easy-to-use experience with no sign-in required; no restrictions on printing, saving or downloading; and no limits on compatible devices or apps.

Flipster Digital Magazines Business magazines are a reliable source of news and information. Access more than 1,200 popular magazines including top picks like *TIME*, *Bloomberg Businessweek* and *Fast Company*. Flipster also offers stress-reducing adult coloring books that employees will find relaxing and enjoyable.

Journal Subscription Services EBSCO provides subscription management services for e-journals, e-packages and magazines with 385,000+ titles from 128,000+ publishers worldwide. A dedicated team works to understand your information needs to add value in recommending, negotiating, acquiring, managing, accessing, and promoting the use of your information resources.

Clinical Decision Support

EBSCO Clinical Decisions solutions are designed to **enhance clinical decision support**, and **support shared decision-making**.

Health Care Solutions

DynaMedex® This evidence-based clinical decision support tool seamlessly combines the clinical expertise and extensive, curated disease content of DynaMed®, with the comprehensive depth and breadth of drug information and natural language query of Merative Micromedex®.

DynaMed® This evidence-based clinical information resource provides busy clinicians with the information they need when, where and how they need it. It allows users to stay current with the latest clinical evidence.

DynaMed® Decisions This clinical decision support solution includes tools that provide individualized clinical guidance based on the specifics of the patient being seen, and patient decision aids for preference-sensitive decisions, driving meaningful patient engagement.

Dynamic Health™ This evidence-based tool is designed to help nurses and health professionals master critical skills, obtain fast answers and foster a culture of evidence-based practice leading to improved patient care.

Isabel Physicians around the world use Isabel to help construct or broaden a differential diagnosis. By entering the information normally captured in a patient workup, Isabel provides physicians with a list of possible diagnoses to help them construct their thinking and make an accurate final diagnosis quickly and easily at the point of care.

Professional Services

Tap into the knowledge and expertise of our professional services team to help expand the **strength of your resources** and to ensure an **optimal research experience** for end users.
