

Create a *smooth* web experience

from EBSCO Discovery Service or EBSCOhost

The web layer preserves essential homepage customizations, helping maintain engagement.

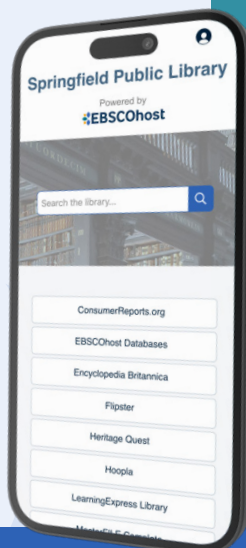

Customer can request link updates using EBSCO support.

A seamless transition to EBSCOhost or EDS, where users enter search terms in the web layer and are instantly directed to EDS and EBSCOhost results.

Choose from three options tailored to your needs, including custom forms, events, and room bookings.

What's Offered?

Our solution improves navigation, increases discoverability and usage, allows branding and logos, adapts to different device types, and enables outbound search to the new UI.

Choose from 3 options:

- 1 Standard Web Layer**
Simple webpage layer that includes search integration with EBSCO Discovery Service and/or EBSCOhost.
- 2 Plus**
Web layer plus access to create basic forms.
- 3 Plus with Events & Room Bookings**
Web layer plus access to create basic forms, manage bookings and events.
