

CINAHL Ultimate

Searching for high-quality clinical research evidence can be a daunting task, yet it is an integral part of the evidence-based practice process. CINAHL Ultimate can support your organization throughout the process, just as it already supports the medical research needs of institutions with users in 46 countries.

Your medical research starts here.

Access the largest collection of leading nursing and allied health literature today.

CINAHL Ultimate delivers:

- More than 1,800 active full-text journals
- Coverage of over 50 nursing specialties
- International content
- Full-text quick lessons, evidence-based care sheets, continuing education modules, nursing instructional videos, and more
- More than 130 videos covering topics including newborn and NICU care, caring for terminally ill patients, pre- and post-op care of orthopedic patients, cultural awareness, and more

This is where inspiration for innovation starts.

Provide your employees with CINAHL Ultimate to develop life-changing solutions and services.
