

# APA PsycInfo® with research services

The world's largest resource devoted to peer-reviewed literature in behavioral science and mental health, now with personalized, AI-driven research services for psychology researchers.

## APA PsycInfo

Focused on the interdisciplinary aspects of the worldwide behavioral and social science research and literature, APA PsycInfo is unmatched as a resource for locating scholarly research findings in psychology and related fields across a host of academic disciplines.

The content in APA PsycInfo is selected and indexed by APA experts based on quality and relevance to the field.

## APA PsycInfo research services

Your institution's subscription to APA PsycInfo on EBSCOhost or EBSCO Discovery Service provides courtesy access to a suite of complimentary, premium features to optimize your search process.

### How does it work?

By leveraging AI and machine learning, these updates are designed to help you discover and explore the latest scientific literature with targeted record curation, features to optimize your engagement with content, and one-click access to full text.

### How do I sign up?

1. Go to <https://psycinfo.apa.org/signup>
2. Fill in your name, the email address you use at your institution and your primary area of interest
3. Get ready to receive weekly notifications tailored to your specific research interests

A screenshot of the sign-up form for APA PsycInfo research services. The form includes fields for 'What's your name?' (with sub-fields for first and last name), 'What email do you use at your institution?' (with sub-fields for institutional email and personal email), and a text area for 'Tell us about your primary area of interest.' Below these are three options: 'PubMed® Content Option', 'Citation Alert Option', and a 'SIGN ME UP' button.

### Tell me more!

- APA PsycInfo research services are fully accessible on your mobile phone
- Your weekly digest includes your search terms, links to articles you've viewed, and previous weekly digests
- Visualizations and other content exploration tools available on the platform include Explore Journal, Topic Mapper, Citation Mapper, and more

To see it for yourself, register for APA PsycInfo research services at <https://psycinfo.apa.org/signup>
