

MEDLINE Complete

MEDLINE Complete is the premiere source for top-tier medical journals. As the largest companion to the MEDLINE index, MEDLINE Complete offers hundreds of full-text medical journals, many of which are available with no embargo, allowing users to access the information as soon as it is published.

In addition to the exceptional quality of the full-text journals found in MEDLINE Complete, user have access to an extensive scope of subject matter including biomedicine, pre-clinical science, behavioral sciences, health policy developments, life sciences and much more.

Additional Features:

- **Easy-to-use interface** with basic and advanced search features and searchable cited references
- **Subject Headings** to help users effectively search and retrieve information and follow the structure of the Medical Subject headings (MeSH) used by the National Library of Medicine
- **Over 1,550** active full-text medical journals
- **Full-text coverage** dating back to 1916
- Ongoing full text and deep backfile **coverage for many key journals**

diabetic foot

Full Text

Peer Reviewed

All time

The screenshot shows the EBSCOhost search results page for the query 'diabetic foot'. The interface includes a search bar at the top with the query and a search button. Below the search bar are filter buttons for 'Full Text', 'Peer Reviewed', and 'All time'. The search results are displayed in a list format, showing two results. The first result is titled 'Sarcopenia, Frailty and Diabetic Foot: A Mini Narrative Review.' and the second is 'Recurrence rates after healing in patients with neuroischemic diabetic foot ulcers healed with and without sucrose octasulfate-impregnated dressings: A 1-year comparative prospective study.' The page also features a 'My dashboard' sidebar on the left and a 'MyEBSCO' user profile in the top right corner. Numbered callouts (1-6) highlight specific features: 1. Search bar, 2. Filter buttons, 3. Filter dropdowns, 4. Sort options, 5. My dashboard sidebar, and 6. Access options button.
